14th September 2016

Peter Neumann,
President,
North and South Otter Lake Association,
435 Montrose Avenue,
Toronto, Ontario M6G 3H2

Dear Peter,

On behalf of the Friends of Frontenac Park, I would like to thank the North and South Otter Lake Association for the most generous donation to our organisation. As you mentioned at the NSOLA annual meeting, the Friends of Frontenac Park exists to develop and promote programmes and materials which enhance the public's awareness, education and appreciation of the natural environment and human history of Frontenac Park. The donation of these funds will be most useful to support our current and future activities.

Some of the endeavours in which the Friends are engaged – and projects being supported financially – to which these funds will contribute are:

- A new colour satellite-based photomap in the Park Office, to replace the black and white aerial photograph that has been in place for the last thirty-two years;
- New descriptive plaques at specific locations throughout the Park illustrating aspects of the human stories associated with building remains;
- A new student research bursary to promote research into natural or historical aspects of the Park;
- Leaflets introducing the Park and explaining its natural environment in a range of languages for the benefit of overseas visitors and new Canadians;
- A new animal display in the Park Office.

In addition, the Friends of Frontenac Park will be commemorating its 25th anniversary over the next few months with historical displays, and inviting participation by members and Park users to celebrate the Park artistically and creatively at an event next May.

Thank you very much again for this most generous donation. I will ensure that the North and South Otter Lake Association is added to the Friends of Frontenac newsletter distribution list so that its members can be kept apprised of our progress.

Yours sincerely,

Simon Smith
Interim President
Friends of Frontenac Park
